Wholesale Power &	\$0.0521
Transmission Credit	per kWh

A Single Phase-Large Meter must be used for a business or residence drawing over 200 amps. Virtually all residences and some small businesses can use a Single Phase meter. Businesses should consult with HMU for specific applications.

Criteria for Demand classification: must use 50 KW for two or more months OR 14,600 kWh for two of more months in a year.

Large commercial or industrial users should talk with HMU to help determine the least expensive classification.
