CALLING FEATURES and HOW THEY WORK

ANONYMOUS CALL REJECTION - FREE

Rejects incoming calls from callers who have their name and number blocked.

CALL FORWARDING - ALL - FREE

Forwards all calls to another number. You can change the second number when needed.

CALL FORWARDING - BUSY - FREE

This feature is separate and distinct from Call Forwarding - All. If your line is busy, an incoming call will automatically be forwarded to a fixed number. Call Forwarding - All will override the Call Forwarding - Busy option.

CALL FORWARDING - NO ANSWER - FREE

This feature is separate and distinct from Call Forwarding - All. After a set number of rings, if no one answers the phone, the call is forwarded to a fixed number. Call Forwarding - All will override the Call Forwarding - No Answer.

CALLER ID BLOCKING - FREE

Prevents your phone number from being displayed on another Caller ID's panel. The Caller ID panel will indicate an unknown name and number.

CALLER ID with CALL WAITING - \$2.99 mo.

Has all the benefits of Caller ID and it also lets you identify your call waiting calls before you answer. Call Waiting ID requires the use of a special display unit. Requires Caller ID, Name & Number and Call Waiting.

CALLER ID, NAME & NUMBER - \$4.99 mo.

A special unit displays the number of the phone and the name of the caller even before you pick up the phone. An add-on display unit or display telephone is necessary.

CALL TRACE

You can receive assistance from your phone company and local police department if you receive harassing or obscene phone calls. A subpoena is required before this option can be added. Deterrent action can be taken by your local police after three calls from the same number are identified. You will not be given the name or the telephone number of the person who called you. If it becomes life threatening, contact the police immediately.

CALL WAITING - FREE

When you're using your telephone, a tone alerts you another call is coming in. You can switch between the call you're on and the new one.

CONTINUOUS REDIAL - FREE

This feature redials a busy number for you for up to 30 minutes, then alerts you if the line becomes available.

LAST CALL RETURN - FREE

Allows you to redial the last number, that called you. Long distance charges may apply.

PERSONAL PIN CODE FOR LONG DISTANCE

Requires a PIN be entered before a long distance call can be made.

PRIORITY RINGING

You can tell by a distinctive ring when designated people are calling.

SECOND DIRECTORY NUMBER - \$2.99 mo.

Allows a second directory number to be assigned at a residence. When the second number is dialed, the phones will ring with a distinctive ringing pattern to identify which number is being called.

SPEED DIAL 8 (FREE) or 30 NUMBERS (\$2.99 mo.)

Allows you to program frequently dialed phone numbers with a one or two digit code.

SELECTIVE CALL FORWARDING - FREE

This feature allows you to create a list of numbers and program a forwarding number. When someone on your list calls, their call will ring at the forwarding number location. All other calls ring to your line as normal.

SELECTIVE CALL REJECTION - FREE

This feature allows you to create a reject list of up to 10 directory numbers. Calls from these 10 numbers will receive a fast busy.

TELEMARKETER CALL SCREEN - \$1.99 mo.

Reduces the amount of unwanted telemarketing calls. Incoming numbers are "pre-screened" - friends and family come through, but telemarketers are turned away by a pre-recorded message.

THREE-WAY CALLING - FREE

You can talk with two other parties at the same time.

VOICE MAIL - \$2.99 mo.

When someone calls, and your line is busy, or if no one answers, the call will roll over to voice mail. If someone leaves a message, a "stuttered dial tone" is heard when you pick up your phone. You can also retrieve your messages from any other phone by using your personal password.
