|---------------|----------|
| All KWH | \$0.0873 |

| Net Metering Energy Accounting | |
|--|------------------|
| Residential and Small Commercial Customers | |
| Service Charge | \$55.03 |
| Wholesale Power & Transmission Credit | \$0.0521 per kWh |

A Single Phase-Large Meter must be used for a business or residence drawing over 200 amps. Virtually all residences and some small businesses can use a Single Phase meter. Businesses should consult with HMU for specific applications.

Criteria for Demand classification: must use 50 KW for two or more months OR 14,600 kWh for two of more months in a year.

Large commercial or industrial users should talk with HMU to help determine the least expensive classification.
